

USASD CAC card installation quick guide

In order to use your CAC to access the USASD SharePoint site you will need to accomplish the following

- Obtain a Smart Card reader
- Install Root Certificates
- Install ActivClient (Not needed on a windows 8 operating system or later)
- Clear your browser settings and try to access the USASD SharePoint

Step 1. Obtain a Smart Card Reader

- a. Smart Card readers can be purchased from most computer, electronic or big box retail stores.
- b. Install all drivers

Step 2: Run the DoD InstallRoot

Install DOD root on your MACBOOK use this link

https://militarycac.com/macnotes.htm

Install DOD Certs on a windows PC use this link

https://militarycac.com/dodcerts.htm

- A. Right click the zip file and select Extract all (make sure you save/extract the file to a location that you can find on your computer)
- B. Double click the InstallRoot_5.5x32_NonAdmin.msi file and complete the process

2 Instance of Setup	A InstalRoot Setup	× 1	InstalRoot Setup
